***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the claims:** cancel claims 1-5.

***Allowable Subject Matter***

2. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claim 6 is found to be in condition for allowance.

***Reasons for Allowance***

3. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a encoding/decoding control method comprising the steps of determining whether or not to perform encoding and/or

decoding by checking a reset of a task status register in the encoder and/or decoder; making pre-assigned bits of the task status register indicating buffer statuses of an encoder buffer and a decoder buffer, and checking the buffer statuses of the encoder buffer and the decoder buffer written in the task status register, and then controlling tasks of the encoder and the decoder.

It is noted that the closest prior art of record Woo et al. (US 5,781,788) teaches a similar encoding/decoding control method, however, Woo fails to particularly teach or suggest *“determining whether or not to perform encoding and/or decoding by checking a reset of a task status register in the encoder and/or decoder, making pre-assigned bits of the task status register indicating buffer statuses of an encoder buffer and a decoder buffer, and checking the buffer statuses of the encoder buffer and the decoder buffer written in the task status register, and then controlling tasks of the encoder and the decoder.”* as specified in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
